* The % Daily Value (DV) tells you how much a nutrient in a serving of food contributes to a daily diet. 2,000 calories a day is used for general nutrition advice.

1. Gather 4 nutrition labels from items around your house. Find the:

- Serving Size
- Calories
- Total Fat
- Total Carbohydrates
- Total Fiber
- Total Sugars
- Protein

3. Ask yourself, how much do you usually eat of this product compared to the recommended serving size?

4. Which items have the most calories or the least?

5. How will reading labels help you to eat more nutritiously?
